

Harris House Kitchens

For a beautiful kitchen that will impress even the purest artisan, look no further than Harris House Kitchens.

Specialising in handcrafted pieces that capture the spirit of classic kitchen designs, the business is run by talented designer Linda Harris. With a palette of more than two-and-a-half million colours at her fingertips, she works her magic time and time again, creating a stunning centrepiece for your home.

A personal session with Linda is an absolute must and she happily incorporates your ideas into the design, so you're bound to be happy with the resulting masterpiece.

"I personally oversee the design of every item," Linda says. "Each piece has its own charm and is oiled and waxed with care to bring out the timber's natural beauty."

Of course, along with providing clients with their dream kitchen, one of the many perks of the job is receiving all the positive feedback. "So many of my clients tell me how incredibly beautiful their new kitchen is. It's an amazing reward to get such a great response."

With your ideas and exact specifications, Linda has the tools and talent to create the perfect kitchen for you.

The team at Harris House Kitchens provides friendly, honest service and prides itself on producing the highest-quality furniture pieces.
